Lengths:

Designed to fit your life, with three lengths available, there is a PEUGEOT Expert Combi to suit everyone. The three different lengths are made up of a combination of two different wheelbase lengths and two rear overhangs. The three lengths are as follows:

Compact: Measuring in at 4.60m in length, Compact combines a shorter wheelbase with a short rear overhang for optimum manoeuvrability .

Standard: Measuring in at 4.95m in length, Standard combines a longer wheelbase with a short rear overhang . Standard length provides the perfect balance between manoeuvrability and practicality. The longer wheelbase provides extra rear seat legroom and a larger boot area whilst the compact rear overhang ensures a comfortable fit within car park spaces.

Long: Measuring in at 5.30m in length, Long combines a long wheelbase with a long rear overhang for optimum practicality. Perfect for larger families or VIP transportation. PEUGEOT recommend the fitment of the optional third row seats to take full advantage of the cavernous levels of space available.

All versions of PEUGEOT Expert Combi are limited to a height of 1.9m , this allows easy access to height restricted car parks.
